

Greetings, Greensprings West Homeowners,

Please allow me to introduce myself: my name is Alise Wahl, and as of December 12 I am taking over for David Drexler as your new Association Manager. I look forward to the exciting and challenging opportunity to work alongside the Board of Directors as well as you, the Homeowners, to ensure that Greensprings West continues to provide not only a beautiful and safe environment for community members and families, but thrives and prospers as a well-managed Community Association.

My educational background is in Architecture and Horticulture, with an emphasis in Landscape Design. After graduating from Montana State University in 1993, I spent several years working as a Landscape Designer and Project Manager for a major landscape design/build firm in the Bitterroot Valley of Montana.

After the birth of my second child, I temporarily put my career on hold to focus my management skills on the raising of my two small sons, although I did continue to work outside my home in a volunteer capacity for the Bitterroot Special Olympics. After moving back to Virginia in 2001 and adding one more little boy to the mix in 2005, I am excited to be back in the workplace and will work hard to fulfill and exceed your expectations as managing agent for Greensprings West HOA, Inc. Thank you for this opportunity.
